POINTS ALLOCATION

You will be allocated between 1-5 points for each section of the award. Submissions should be evidence-based and judged on planning, implementation, consistency, involvement, learning and flexibility.

Points	Reason
1	There is no evidence of a systematic approach. Presentation is based on anecdote. Deployment and consistency are not evident. Activities are reactive. There is no clear goal. Cooperation between units or groups is not evident.
2	There is some evidence that the concept of a systematic approach is evident. Deployment has been considered but there is little evidence of implementation across all relevant units. Evidence of a proactive approach is anecdotal. Some evidence of other units being considered is apparent. Measurement has been considered and is in place. There is evidence measurement is understood and contributes to the goal.
3	Clear evidence of a systematic approach is demonstrated. Deployment is evidenced but there is some suggestion that it is not universal. There is some evidence that the organisation is learning because of the approach and deployment. There are early signs of evaluation taking place in a consistent manner.
4	The approach is systematic and responsive to multiple requirements. Its effectiveness is measured, and plans are revisited and refined on a regular basis. Deployment is communicated across the whole organisation. There is clear evidence that the organisation is learning and applying lessons across the whole operation.
5	The approach is evidenced as systematic, responsive to multiple requirements and effective. Deployment and integration are clearly universal and there is a fact based systematic evaluation system in place which influences how the approach is progressed.
